SMC 1162, 5032 Forbes Avenue
Pittsburgh, PA 15213

Carnegie Mellon University
B.S. In Information Systems, 2012
B.S. in Human-Computer Interaction, 2012
GPA: 3.6
Dean's List Fall 2008, Spring 2009

Relevant Fall 2010 Coursework
05-410 HCI Methods
05-413 Human Factors
67-371 Fundamentals of Sys. Development
67-328 Distributed Appl. Development

Experience

IBM
Software Engineering Intern
Summer 2010 | San Jose, CA

- Created an application to help new users with IBM's enterprise products using gaming and "serious play."
- Designed high-fidelity mock-ups then coded them into clickable Flex prototypes. Ran user tests to determine the best practices to follow.

Hairbop.com
Developer
Spring 2010 - Present | Remote

- Web and mobile development for a startup using Ruby on Rails 2/3, HAML and SASS. Also worked on *VowDoo.com* in the same capacity.

Carnegie Mellon University
Cluster Consultant
Spring 2009-Present | Pittsburgh, PA

- Conduct troubleshooting and diagnostics of Windows XP/7, Mac OSX and Unix machines.
- Completed several technical examinations to advance my salary.

OfficeMax
ImPress Sales Associate
Summer 2009 | San Jose, CA

- Worked directly with clients to design everything from resumes, posters and invitations.
- Within two weeks, had my responsibilities increased to independently opening, closing and operating the department.

Cadence Design Systems
Intern
Summer 2007 | San Jose, CA

- Lead a small team to assist the IT department in various tasks - physical audits, laptop repair and data recovery.
- Created a system using barcode labels, Microsoft Excel and Microsoft Access to keep track of server locations and configurations.

Projects

Yahoo! Hackathon
Hacker and Hack U Ambassador
Fall 2008 - Present

- Currently working with Yahoo! to help organize the Carnegie Mellon Hack U event.
- In the past, worked in a 4-person team to hack together a web app in 24 hours. Our applications (such as a location-aware chatroom) have won two honorable mentions and taken first place in the HackPitch competition.

67-250 Teaching Assistant
Present

- Teaching assistant for an Information Systems core class. Responsibilities include mentoring a small group of students as they try to solve business scenarios.

Misc. Projects

Leonard Gelfand Center
Present
gelfand.web.cmu.edu
Website maintenance in PHP.

Peritus Partners
Present
peritusp.com
Currently redesigning a site for a technology consulting firm.

TEDxCMU
Spring 2010
tedxcmu.com
Developed a WordPress theme to emulate the distinct TED look. Template also used for TEDxUniPittsburgh.

Side B Music
Fall 2009
Front-end work on a music search engine with emphasis on progressive enhancement.
